CONDITIONS OF APPROVAL

(Additional Information Sheet)

APPROVAL CONDITIONS FOR THE PROPOSED LAND FILL AND

WASTE COMPOSTING PLANT

The approval of Environmental Impact Assessment is granted on condition that Lira Municipal Council shall:

- (i) fulfill the legal requirement for zoning the site as special for waste handling and disposal;
- (ii) construct and maintain an access road for transportation of waste to the site;
- (iii) provide an adequate buffer zone around the site planted with trees and appropriate vegetation;
- (iv) take the necessary step to ensure that hazardous waste such as clinical and chemical waste etc., are not part of the waste to be subjected to the composting process;
- (v) restrict access to the site by fencing off the site to ensure that the waste composting and disposal activities at the site are not interfered with by activities in the surroundings and vice-versa;

Executive Director (NEMA)

**APPROVAL CONDITIONS FOR THE PROPOSED LAND FILL
AND WASTE COMPOSTING PLANT (continued)**

- (vi) ensure that any effluent discharges from the waste site conform to the National Environment (Standards for Discharge of the Effluent into Water or on Land) Regulations, 1999.
- (vii) obtain the requisite licences for operation/owning a waste disposal site and transportation of waste to the site under the National Environment (Waste Management) Regulations 1999.
- (viii) ensure that the waste site is used solely for composting and disposal of waste categorised as municipal waste unless a licence is obtained for handling and disposal of such other waste.
- (ix) provide an alternative source of water for communities in the area in form of a borehole or water kiosks.
- (x) put in place proper and adequate drainage around the site to trap storm water and prevent it from invading the composting process operational area.
- (xi) encourage the separate collection of plastic mineral water bottles, other recyclable plastics and materials in the Town Council for recycling purposes.
- (xii) control rodents, pests and disease vectors at the waste site and the surroundings.
- (xiii) create community awareness about the waste composting project activities so that there is appreciation of the project and support of the project objectives, activities and outputs.
- (xv) ensure that persons working under the direction of Lira Municipal Council comply with the National Environment Laws and that they manage waste in a manner that does not cause ill health to persons or damage the environment.
- (xvi) undertake annual self-audits and transmit them to NEMA by July 2008;
- (xvi) implement the Environmental Monitoring Plan contained in the EIS and ensure record keeping as contained in Section 77 of the National Environment Act Cap 153 and their transmission to the Authority as required by Section 78 of the Act.
- (xvii) in accordance with Section 22 (4) of the National Environment Act Cap 153, Lira Municipal Council will be required to ensure that any other undesirable environmental impacts that may arise due to implementing this project but were not contemplated by the time of undertaking this Environmental Impact Assessment are mitigated.
