

CONDITIONS OF APPROVAL

(Additional Information Sheet)

**APPROVAL CONDITIONS FOR THE PROPOSED LAND FILL AND WASTE
COMPOSTING PLANT**

The approval of Environmental Impact Assessment is granted on
condition that Mukono Town Council shall:

(i) fulfil the legal requirement for zoning the site as special for
waste handling and disposal;

(ii) construct and maintain an access road for transportation
of waste to the site;

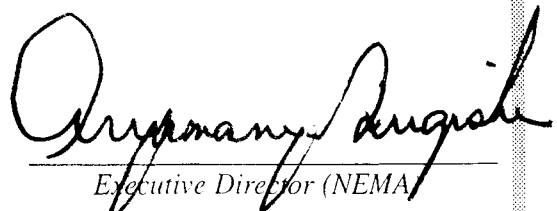

(iii) provide an adequate buffer zone around the site planted with
trees and appropriate vegetation;

(iv) take the necessary steps to ensure that hazardous waste such
as clinical and chemical waste etc., are not part of the waste
to be subjected to the composting process;

(v) restrict access to the site by fencing off the site to ensure
that the waste composting and disposal activities at the site
are not interfered with by activities in the surroundings and
vice-versa;

Signed

Executive Director (NEMA)

APPROVAL CONDITIONS FOR THE PROPOSED LAND FILL AND WASTE COMPOSTING PLANT AT KATIKOLO VILLAGE, MUKONO TOWN COUNCIL (continued)

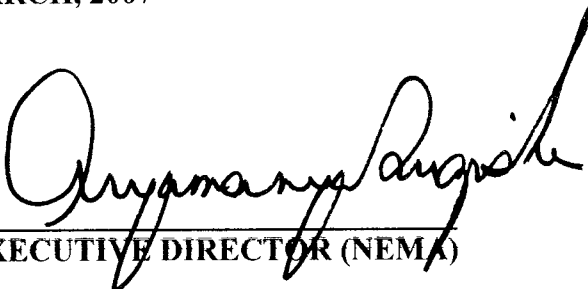

- (vi) ensure that any effluent discharges from the waste site conform to the National Environment (Standards for Discharge of the Effluent into Water or on Land) Regulations, 1999.
- (vii) obtain the requisite licences for operation/owning a waste disposal site and transportation of waste to the site under the National Environment (Waste Management) Regulations 1999.
- (viii) ensure that the waste site is used solely for composting and disposal of waste categorised as municipal waste unless a licence is obtained for handling and disposal of such other waste.
- (ix) encourage and separate the collection of plastic mineral water bottles, other recyclable plastics and materials in the town Council for recycling purposes.
- (x) create community awareness about the waste composting project activities so that there is appreciation of the project and support of the project objectives, activities and outputs.
- (xi) undertake regular water quality analysis of domestic water sources in Katikolo wetland.
- (xii) put in place proper and adequate drainage around the site to trap storm water and prevent it from invading the composting process operational area.
- (xiii) control rodents, pests and disease vectors at the waste site and the surroundings.
- (xiv) ensure that persons working under the direction of Mukono Town Council comply with the National Environment Laws and that they manage waste in a manner that does not cause ill health to the persons or damage the environment.
- (xv) implement the Environmental Monitoring Plan contained in the Environmental Impact Statement and ensure record keeping as contained in Section 77 of the National Environment Act Cap 153 and their transmission to the Authority as required by Section 78 of the Act.
- (xvi) in accordance with Section 22 (4) of the National Environment Act Cap 153, Mukono Town Council will be required to ensure that any other undesirable environmental impacts that may arise due to implementing this project but were not contemplated by the time of undertaking this environmental impact assessment are mitigated.
